

Environmental Policy

〔Basic philosophy〕

At Kusumoto Chemicals, Ltd., Additives Unit, we recognize that global environmental conservation is one of the most important challenges. Through our business activities, we are committed to contributing to society by developing and supplying products with lower environmental impact and actively engaging in various initiatives to address environmental issues.

〔Basic policy〕

- ① To provide environmentally friendly products, we strive to reduce environmental impacts through all stages of product development—from raw material selection to the manufacturing process.
- ② We are committed to the continuous improvement of environmental conservation activities and to reducing environmental impact through resource conservation, waste reduction, and the reduction of environmentally harmful substances.
- ③ We comply with all applicable environmental laws and regulations, customers' environmental requirements agreed by the Additives Unit, and other relevant requirements.
- ④ We regularly conduct internal audits and management reviews to continuously improve our environmental management system.
- ⑤ This policy is documented and thoroughly communicated to all relevant employees.
- ⑥ This policy is made available to the public.
